

XBRL Tool for Undertakings

XBRL EU/ EIOPA Central EU XBRL Event
11th April 2012

Why are we going to provide a XBRL Tool for Undertakings?

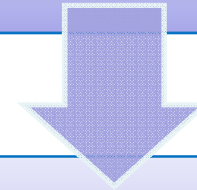

eiopa

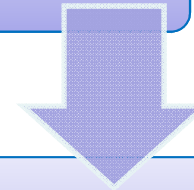

What are we looking for?

eiopa

Helping the undertakings without XBRL knowledge,
providing a tool to easily create complete and valid
XBRL instances of the Solvency II harmonized
quantitative reporting

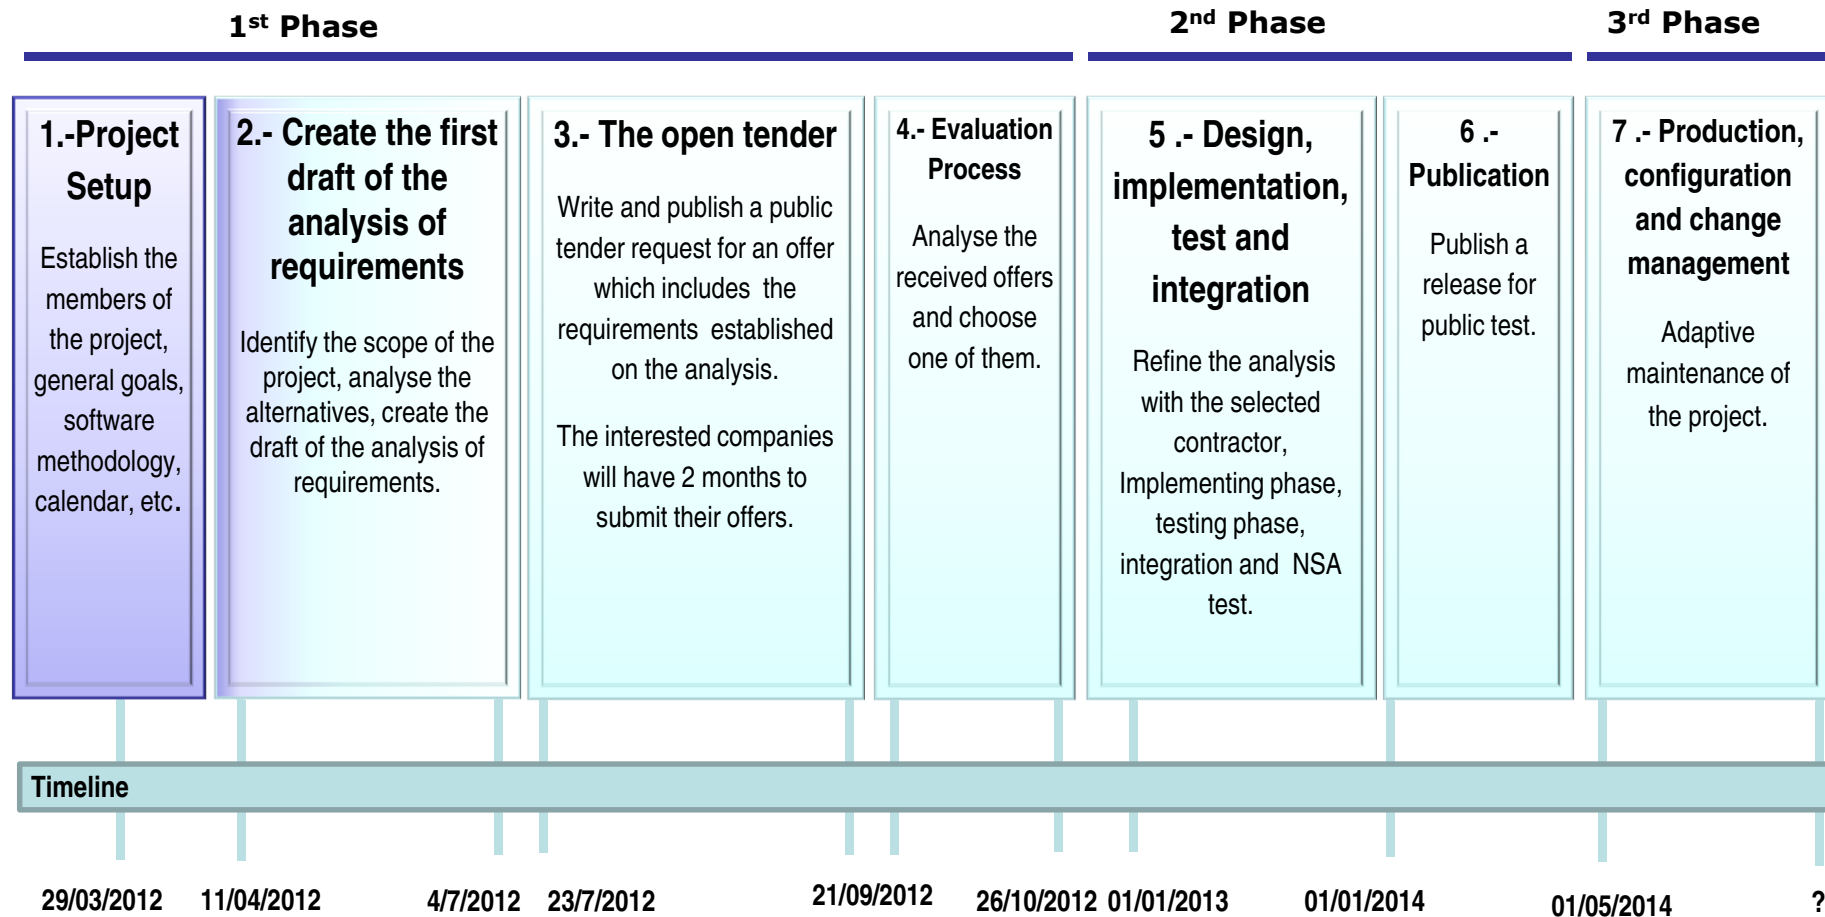

Designing the XBRL tool to be reusable for
other projects and specifically extensible for
NSA local requirements

Contributing XBRL community and open
source community

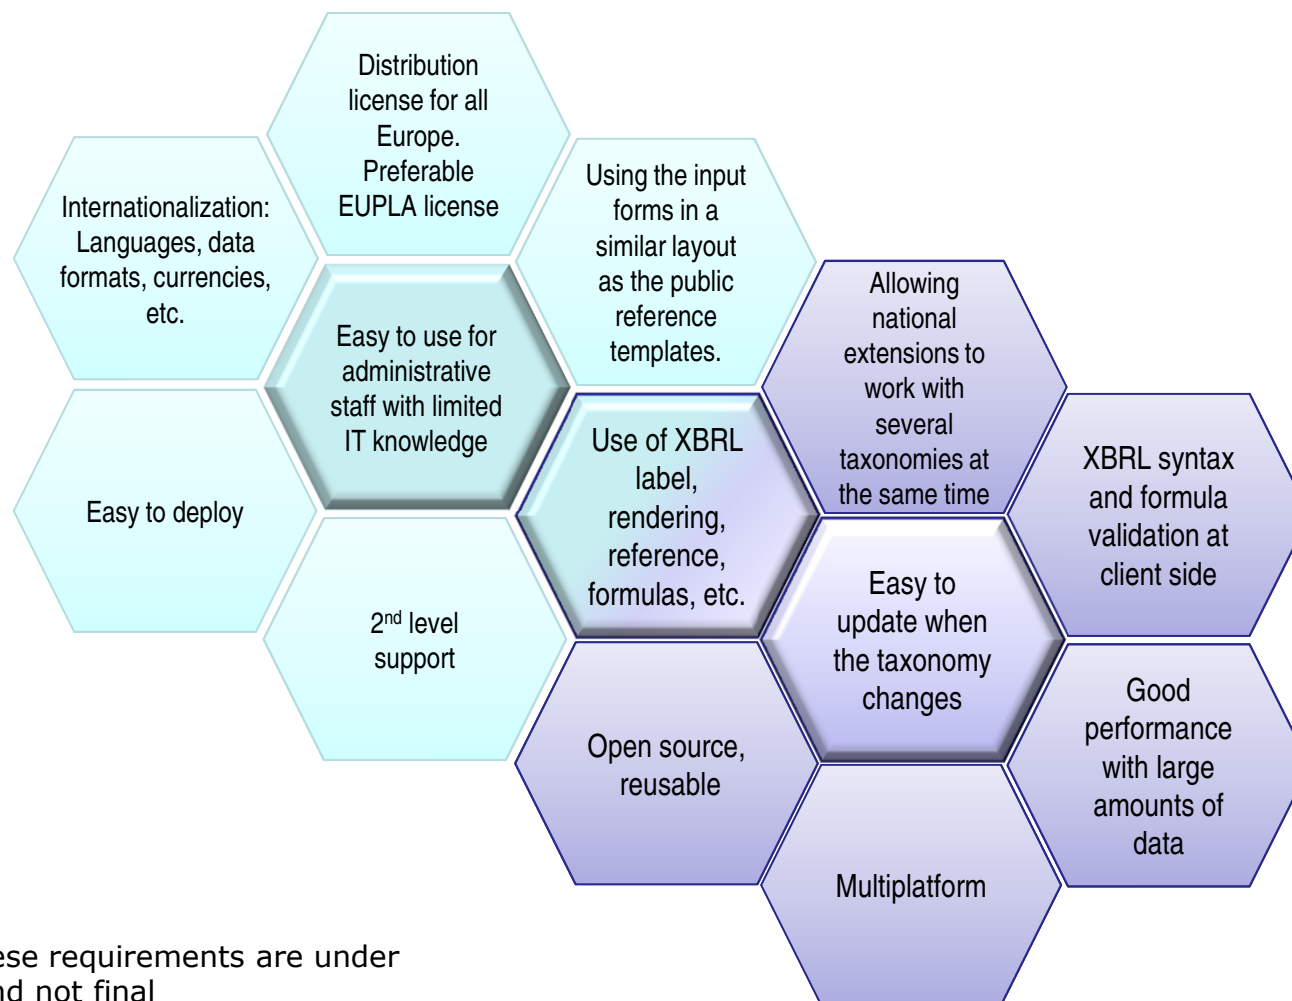

How and when are we going to develop it?

eiopa

Requirements

eiopa

Note that these requirements are under discussion and not final
